Personal Statement

A dedicated and ambitious university student pursuing a degree in Business Information and Technology at USIU Africa, with an expected graduation in October 2027. Passionate about technology, leadership, and personal growth, I am developing skills in AWS cloud computing, web development, and threat intelligence. My diverse experiences, including leadership roles in school organizations and active participation in sports, reflect my adaptability, teamwork, and drive to excel.

Education

USIU Africa – Bachelor of Business Information and Technology
